CAST FILM SKINTAC HX45000

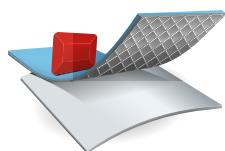

3D

LONG TERM

FULL WRAPS

AUTOMOTIVE FLEETS & BOATS

Fully conformable, **SKINTAC HX45000** can be easily applied on any indoor or outdoor surface. Its excellent performance and conformability allow it to be used on curved or textured surfaces (welds or rivets). Thanks to its surface sliding properties, it offers easy and time-saving application. Particularly suitable for application on boats.

The **HEX'PRESS** liner is an innovation used by HEXIS for our high-performance films.

SIGN VINYL

CAST FILM SMARTAC KG8000

2D+

LONG TERM

PERMANENT

SMARTAC KG8000 is a cast film offering good conformability on complex surfaces such as rivets or deformations on vans. It is also suitable for decorative strips on vehicles.

The product is easy to cut and to apply thanks to its good dimensional stability.

DATA SHEET

- > **HIGH-PERFORMANCE** CAST FILM
- > **50 MICRONS**

CAST FILM SMARTAC EVOLUTION A5000

2D+

PVC-FREE

LONG TERM

PERMANENT

The **SMARTAC EVOLUTION A5000** film is perfect for indoor and outdoor signage.

Its high technical performance gives it excellent conformability, allowing it to be applied on concave or convex surfaces. Metallised films should be applied to flat or 2D surfaces only, without stretching.

This series offers easy removal and increased resistance to abrasion compared with PVC films.

PLOTTER FILM TRUCK BANNER SPECIAL TB9000S

2D

MEDIUM TERM

PERMANENT

With excellent flexibility, making it easy to weed, the **TB9000S** film is suited for large lettering (logos, graphics, decorative strips and more).

This film offers good resistance to weather hazards and mechanical stress (e.g. automatic washing programs).

Specially designed for fast application, it also provides high initial tack and allows the tape to be removed straight after application.

HEXIS ADVICE BEFORE APPLICATION

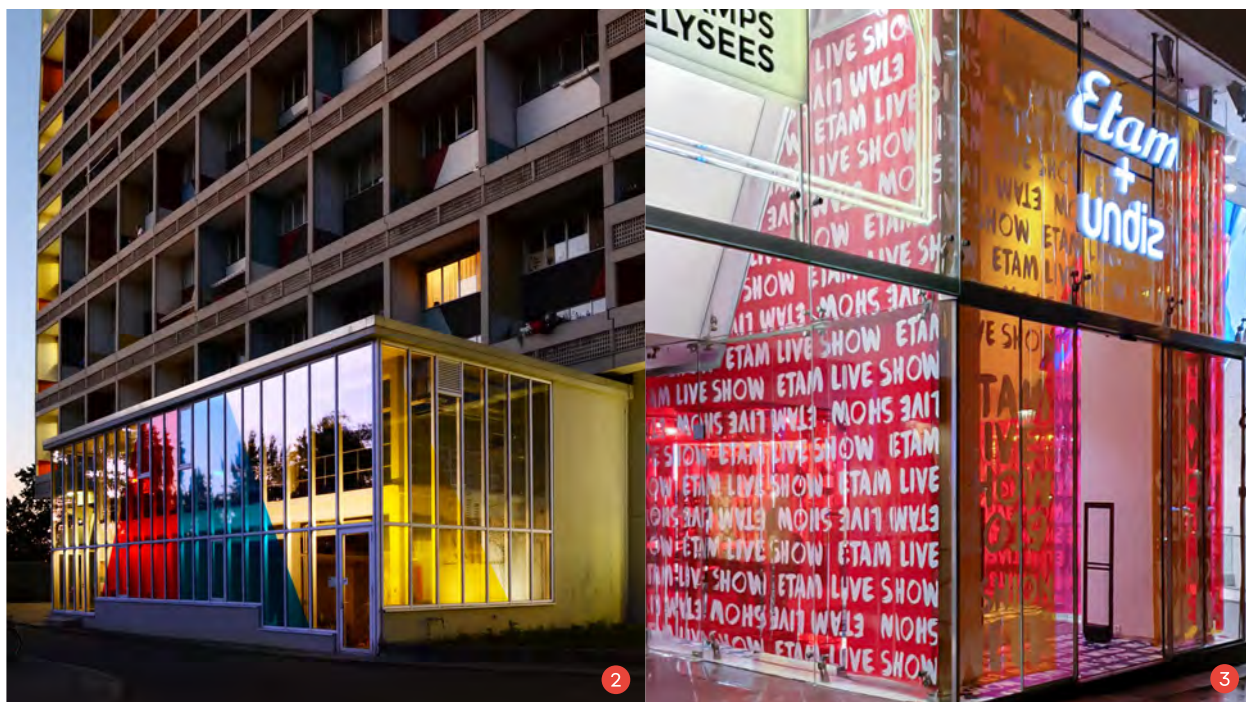

For best results, we recommend you apply transfer paper to the Cristal C4000 beforehand.

APPLICATION

To achieve optimal transparency, we recommend using the SHAGFENCE squeegee (see page 184) and the HEXISGEL application gel (see page 207).

POLYMERIC FILM TRANSLUCENT T5000

2D

LONG TERM

PERMANENT

This film is specially designed for markings on light boxes. Its slightly grained finish gives your signs perfectly uniform light diffusion. Its excellent dimensional stability lets you complete assemblies with ease. It can be applied equally well on Plexiglas® or diffusing banners. The translucent film works hand-in-hand with BLOCKOUT to create opaque effects..

HEXIS ADVICE

The BBNOIR film can be erased easily with a damp, non-abrasive cloth or sponge.
Do not use with chalk markers.
Indoor use only.

For painted substrates, apply on undamaged, original paintwork only.

MASKING FILMS

The **M1000 stencil** is specially designed for sandblasting granite, marble and glass.

The **STENCIL** is designed for marking smooth surfaces: sheets, walls, etc.

The **LAMBREQUIN** is specially designed for creating templates for markings on canvas. Its flexibility and special adhesive allow it to marry perfectly with the fibres of the canvas and thus avoid paint bleeding.

APPROVED REFLECTIVE FILMS P8100

PERMANENT NIKKALITE

MICROBEADS

CLASS RA1

EN12899-1:2007 STANDARD

The multilayered **P8100** film is made from acrylic resins and glass microbeads with highly reflective properties. It is particularly resistant to harsh conditions (heat, cold, dryness and humidity).

Sign panels covered with this reflective film are highly visible by day and by night, contributing to optimal safety.

HEXIS ADVICE

For more information on the reflection coefficients, download our technical data sheets from our website.

Note: the P8100 and R3000 products are not approved for road signs.

Looking for a printable reflective film?

Check out the MLG48512 film on page 111.

TECHNICAL TAPES DOUBLE- SIDED

ACRYLIC TAPES

Suitable for structural bonding on various surfaces: wood, metal, glass and most synthetic materials. High initial tack and very high ultimate adhesion. These double-sided tapes replace screws and rivets. Perfect sealing. Resistant to UV rays, solvents and humidity. Applications: advertising totems, mounting beadings, mouldings, emblems and reinforcement parts. Typical applications for transparent tapes: light boxes, applications on Plexiglas®.

TECHNICAL TAPES DOUBLE- SIDED

ACRYLIC FILM TAPE

Suitable for a variety of surfaces: wood, metal, glass and most synthetic materials (ABS, polyester, PVC). High initial tack and very high ultimate adhesion. Excellent cohesive strength. Resistant to UV rays and humidity. Applications: fixing light materials (signs, beadings, etc.).

DATA SHEET

- > **TRANSPARENT TAPE**
- > THICKNESS **0.25 MM**

PRODUCT CODE	WIDTHS MM	50 LM LENGTH

VELCRO FASTENING

DUO GRIP

Fastening with a re-adjustable clip: optimal fastening is achieved by pressing the hook structures into each other. Suitable for both high and low loads. Can hold loads up to 5 times higher than conventional "hook and loop" fasteners. Easy to release, but resistant to shearing. Resistant to UV rays and humidity. Applications: fixing boards, name plates and emblems.

INFORMATION

Product codes that end in an "i" have a liner printed with HEXIS in a very light grey.

Further cutting possible for specified widths, from 50 mm onwards and by increments of 50 mm, based on original widths.

Special Kit tapes provide better dimensional stability and are intended for markings that need to be stored.

HOW TO CHOOSE YOUR TAPE?

BASIC APPLICATION TIPS

Transfer papers are for wet application.
Transfer films are for dry application.

TRANSFERRING SMALL LETTERING (SMALLER THAN 1 CM)?

Use a tape with medium adhesion,
such as HEX915.

APPLYING IN COLD WEATHER (UNDER 10 °C)?

We recommend a high-tack tape.

TRANSFERRING DIGITAL PRINTS?

Use the HEX100i transfer paper
specially designed for kits.
You can use it for transferring digital prints
with solvent, eco-solvent and UV inks.

TRANSFERRING THE S5DEPM ETCHED GLASS FILM?

Use the HEX100i and HEX909 tapes.

TRANSFERRING LIGHT COLOURED LETTERING?

Use the HEX9610. A transparent transfer film is
preferable so you can better see the light colours.

WANT TO MAKE A KIT?

Use the HEX100i, HEX910 or HEX930.

TRANSFERRING FLUO VINYL?

Use the HEX750.

APPLYING ON A WALL?

The HEX910 is perfect for transferring
vinyl with reinforced adhesive.
Tip: leave a frame of vinyl on the tape
around your cutout.

SKINTAC HX30000, specially designed for customising vehicles and for decoration, consists of a multilayered cast PVC film and a **Hex'PRESS** liner for easy application.

DIGITAL **PRINTING**

PREMIUM CAST FILM BANNER SPECIAL

LONG TERM

PERMANENT

The **VTB901WG1** film has a PE liner allowing a superior **print quality**. Its excellent **opacity** and adhesion over time ensure perfect, durable results. This film offers **high resistance to adverse weather and mechanical stress** (e.g. automatic wash programs). Designed for **fast application**, it minimises vehicle downtime.

THE HEXIS PLUS

Products compatible with HEXIS banners (**FRONTM1EV2**, **FRONT2V3S**, etc.)

HEXIS ADVICE

The **VTB901WG1** offers strong immediate adhesion. Make sure to use our **HEX904** tape. Once the film is installed, you can remove the tape immediately.

PREMIUM CAST FILM SKINTAC THE190EVO

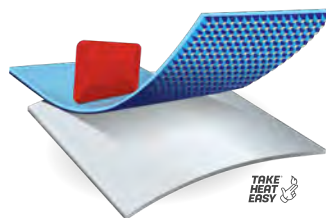

LOOKING FOR A HIGH QUALITY CAST FILM EASY TO APPLY?

Hexis has developed **THE190EVO**, the new generation of digital printing films.

Conformability, versatility and an **excellent gloss finish** make it ideal for any circumstance: car, vehicle fleet and boat wraps, interior decoration and more.

THE190EVO can be used with our PC190 range of high-performance cast laminates (gloss, satin or matt finish) and many more.

THE HEXIS PLUS

For optimum durability of the complex, the **laminates** we recommend the most is the **PC190**.

It can also be combined with other laminates : the **PC500** range (PVC-free, very high protection, UV-resistant), the structured **PCCARBON** range (structured carbon effect) the **PCSTAR** (sparkle effect), etc.

DATA SHEET

- > PRINTABLE WHITE FILM, GLOSS

THE190EVO	gloss	✓	✓	✓	✓	\$374.50	\$674.00
						\$415.50	\$747.80

**TAKE
HEAT
EASY**

New technology providing **low initial tack** thanks to the combination of a **new solvent-based adhesive** and a **structured liner**.

Cast PVC offering **extreme conformability** for installations on "difficult" surfaces such as rivets, rear-view mirrors, etc.

- **Low initial tack**
- **Repositionable**, printable cast film

Benefits of the THE190EVO

TAKE HEAT EASY® (THE) combines a **new structured liner** with a **new solvent-based adhesive** reducing the film's initial tack for greater ease of application. All installers, including beginners, will love it.

Our printable film itself has also been optimised. Like our **HX190WG2**, it is still a 50-micron film, but our chemists have integrated a special layer to make the film more opaque.

Try it - you'll love it!

PREMIUM CAST FILMS 100 SERIES

3D

LONG TERM

PRINTED FULL WRAPS

PERMANENT

PRINTABILITY

Compatible with all printing systems
Optimised ink coverage
Alleviates printing flaws due to inaccuracies of the printing system

INSTALLATION PROPERTIES

Multilayered film. Regardless of ink quantity, the tack perceived during installation remains the same.
Thanks to their composition, these films lower the risks associated with installation quality.

EASE OF APPLICATION

You can choose a 30- or 50-micron laminate to optimise handling and make installation easier.

PVC-FREE

What are the advantages of PVC-free films?

These products reduce the impact on the environment thanks to their specific manufacturing process. HEXIS consume less energy during production. Furthermore less petroleum-based organic materials are used.

HX500WG2 is a 50-micron PVC-free film for 2D+ surfaces.

Recommended laminates

Thanks to their formulation, **PC500G2** & **PC500M** offer optimised application. Your squeegee glides easily over the laminate, saving you time during installation.

Recommended laminate

PL300CG2 consists of a transparent 30-micron latex film coated with a pressure-sensitive acrylic adhesive.

A user-friendly printable solution with **HEX'PRESS** technology.

The reinforced adhesive lets you create designs on textured and low-energy surfaces while respecting the environment.

INFORMATION

For lengths longer than the standard, please contact your local distributor.

CAST FILMS 100 SERIES WITH REINFORCED ADHESIVE

WALL WRAPS

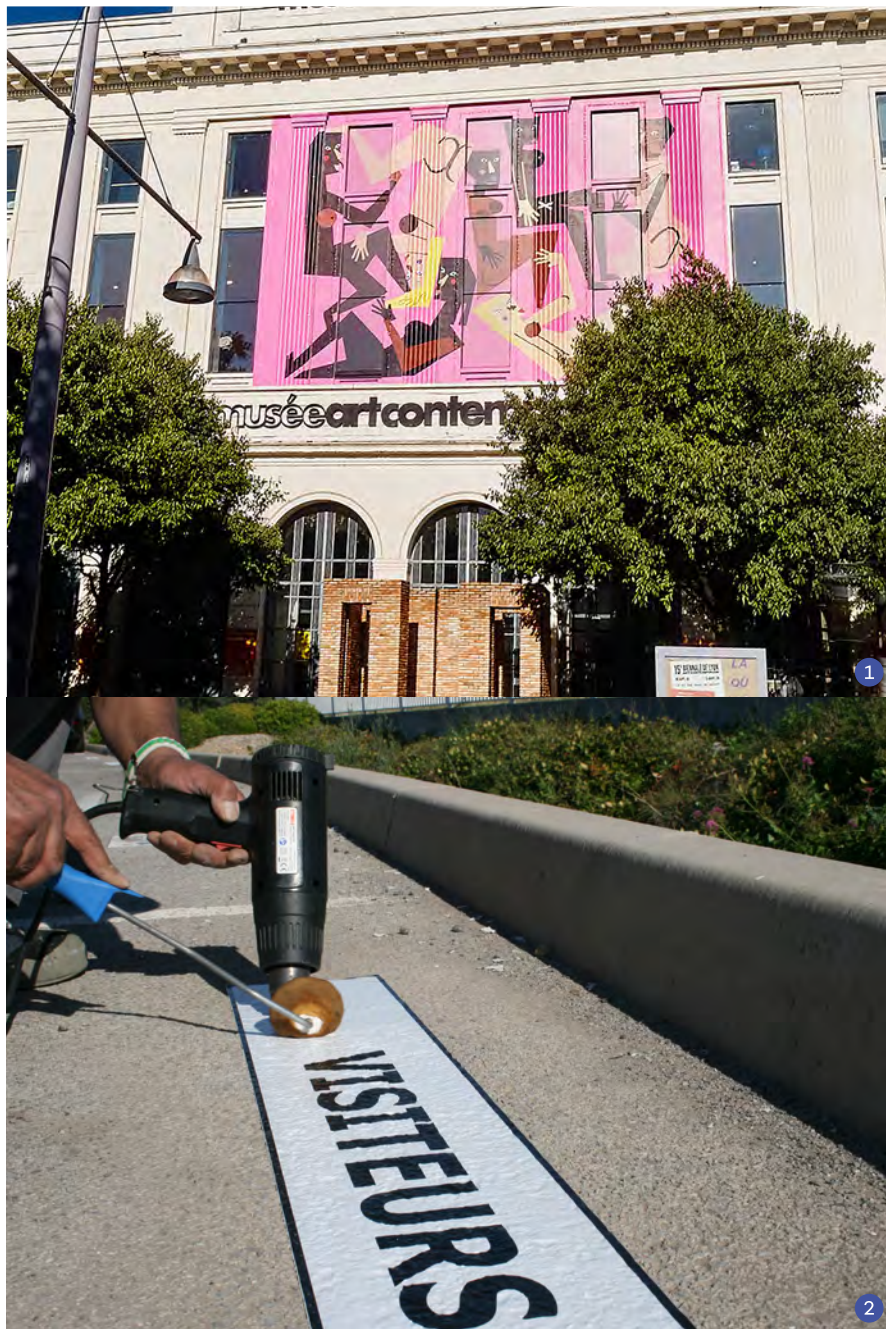

LONG TERM

LOW-ENERGY & COMPLEX SURFACES

These products are especially suited for **wall wraps**, complex surfaces (rivets, corrugated metal, etc.) and low-energy surfaces.

The combination of ultra-conformable cast vinyls and our **HEX·PRESS** technology enables you to achieve the highest quality while reducing installation times.

Get even better results by using our high-performance **PC190** or **PC30** laminates available in matt, gloss or satin finish.

FILMS & PAPERS AQUEOUS RANGE

SELF-ADHESIVE FILMS

These films have a permanent solvent-based acrylic adhesive. Their receptive coatings fix pigment inks perfectly. Designed for both your indoor and outdoor prints. They allow you to faithfully reproduce a vast range of colours. The main applications are on flat surfaces such as boards, windows, signs and stands, etc.

LAMINATES

LAMINATES PREMIUM CAST

3D

FULL WRAPS AND WALL WRAPS

LONG TERM

These laminates are ideal for protecting your digital prints applied on a vehicle. Combined with HX190WG2 or THE190EVO (see page 76), they form a 80- to 100-micron complex which is easier to apply and to remove than a non-laminated vinyl print.

Laminates recommended for the 100 SERIES (see page 76), or for reinforced products (see page 90).

INFORMATION

SPOTLIGHT ON... HEXIS HEALTH

In order to improve hygiene conditions inside buses, the city of Draguignan (France), in partnership with DS Publicité and HEXIS, decided to install an antimicrobial film in all of their passenger vehicles with an antimicrobial film. This innovative product neutralises germs on bus handrails.

Concerns about hygiene discourage many people from using public transport.

The antimicrobial film prevents proliferation of bacteria by means of constant antibacterial action, thus ensuring protection 24 hours a day, 7 days a week.

The team at DS Publicité fitted this antimicrobial film on the handrails of 10 buses.

LAMINATES FOR MICRO- PERFORATED FILMS

BUILDING WINDOWS

VEHICLE WINDOWS

The **PC50MIP2** laminate is designed for micro-perforated films on vehicle windows (both flat and curved).

Its polyester liner prevents image distortion, giving the product excellent transparency.

R1 R7

The **PG836** is designed for flat windows on buildings.

R1 R7

The **PG3036UVB** is also designed for flat windows on buildings. Its special composition improves the UV resistance of your complex compared to the PG836.

ANTI-SLIP LAMINATES FOR FLOOR GRAPHICS

GRAINED EMBOSSED SURFACE

PROTECTION OF FLOOR GRAPHICS

This new range, ideal for laminating digital prints, opens up a new communication opportunity: the floor. Also designed to reinforce digital prints and to provide protection from external stresses (abrasion, marks, humidity, etc.).

GFLX230 is rated R12,
GFLX210 is rated R11
and GFLI170 is rated R9
according to the standard
DIN51130.

Applications are varied:
from floor graphics
(trade fairs, public areas,
supermarkets, etc.) to
special protection for
items such as reception
desks and counters.

DECORATION SPECIAL

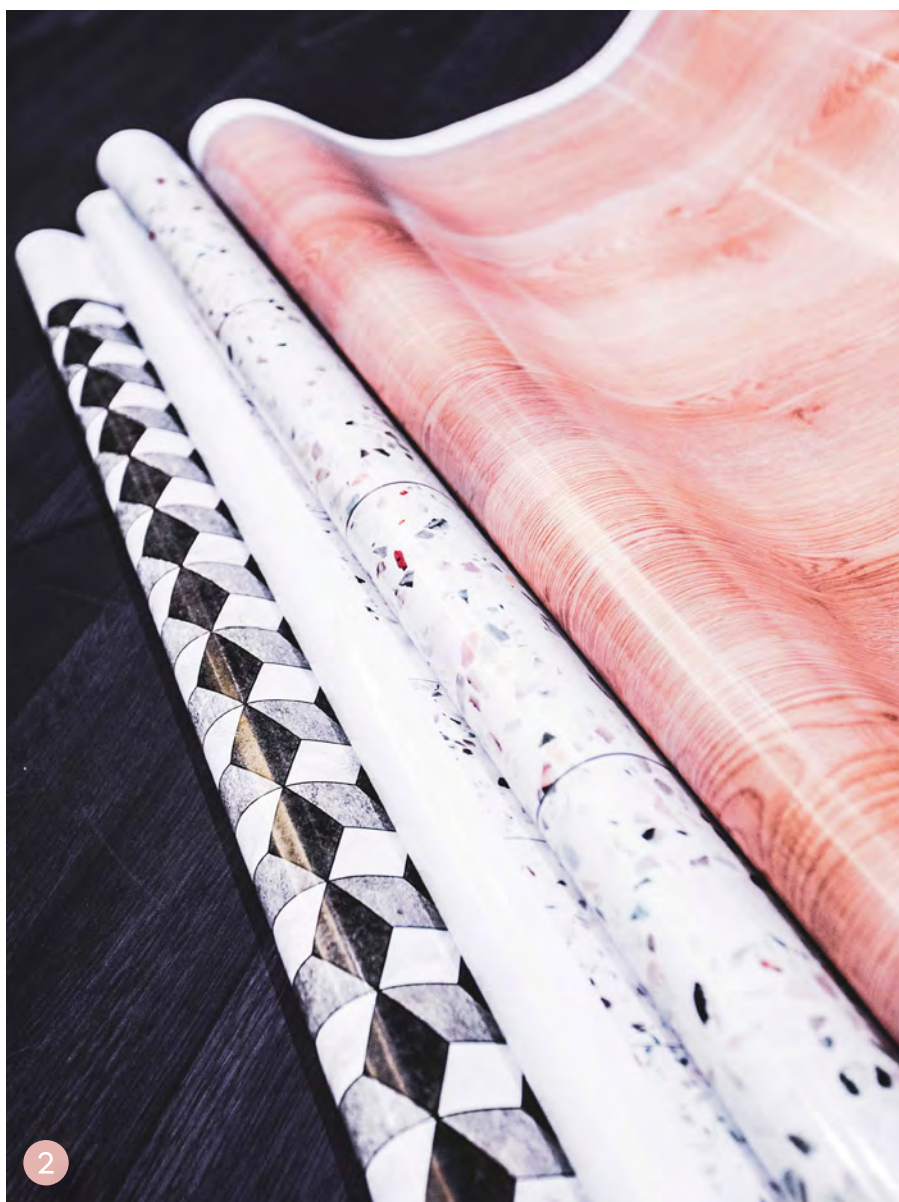

HEXIS S.A. is the first supplier of self-adhesive films to provide a free HD library of infinitely adaptable large-format textures

HEX'PERIENCE IS:

- Graphics files
- In large format
W = 1300 mm
H = 3000 mm
- With no repetition and infinitely modifiable
- In high resolution (200 dpi)

THE BENEFITS:

- Less stock
- More added value
- Ease to use
- Infinitely customisable
- Ability to mix the files with each other

WALL WRAPS

LONG TERM

LOW-ENERGY & COMPLEX SURFACES

These products are especially dedicated to wall wraps, complex surfaces (rivets, corrugated metal, etc.) and low-energy surfaces (e.g. waste containers).

The combination of ultra-conformable cast vinyls and the **HEX'PRESS** technology enables you to achieve the highest quality while reducing the installation time.

Your results will be optimised by using our high-performance **PC190** or **PC30** laminates available in matt, gloss or satin finish.

WALL WRAPS

SHORT TERM OR PROMOTIONAL

LOW-ENERGY & COMPLEX SURFACES

The reinforced adhesive ensures adhesion to irregular, grained and textured substrates or low-energy surfaces (waste containers, concrete, bricks).

DECORATION ANTI-SLIP LAMINATES

Customise your **indoor/outdoor floors** and choose from our range of certified **anti-slip** laminates.

GRAINED EMBOSSED SURFACE

PROTECTION OF FLOOR GRAPHICS

This new range, ideal for laminating digital prints, opens up a new decoration opportunity: the floor.

GFLX230 is rated **R12**,
GFLX210 is rated **R11**
and **GFLI170** is rated **R9**
according to the standard
DIN51130.

Applications are diverse:
from floor graphics (trade fairs,
public areas, supermarkets,
etc.) to special protection for
furnitures such as reception
desks and counters.

The DIN 51 130 standard determines the anti-slip properties of floor coverings. It is understood by both professionals and private individuals.

HOW TO BUILD YOUR HEX'PERIENCE IN 5 STEPS

NO. 1

Choose your print film:

Durability, conformability, type of adhesive,
indoor/outdoor display

NO. 2

Download the texture of your choice:

Infinitely customise your work via our website
<https://www.hexis-graphics.com/en/hexperience/>

NO. 3

Print

NO. 4

Laminate

and/or protect your prints
in an original and realistic way.

NO. 5

Apply

Finished! All you need to do now is apply it.

Explore our dedicated decoration area on:
www.hexis-graphics.com/en/hexperience

There you will find the texture library, pictures
of completed projects, hints & tips,
the latest trends and lots more

HOW TO I IMPORT MY PATTERNS INTO PHOTOSHOP?

NO. 1

Upload the texture files

NO. 2

In Adobe Photoshop,
Open the texture file of your choice

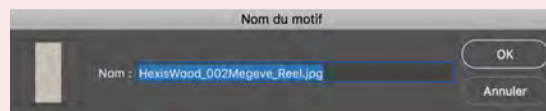

NO. 3

Select > **Select all**

(Ctrl + A in Windows / Cmd + A on Mac)

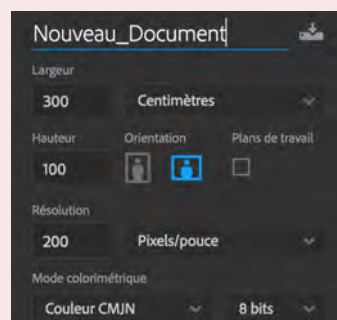

Edit > **Define Pattern**

(If you want to, you can name the new pattern)

NO. 4

Create a new document of the **actual size**
of the surface to be covered and at **200 dpi**

NO. 5

Select > Select all,
then Edit > Fill > **Fill with pattern**
Choose the pattern and validate

TEXTILE

COLOUR FILM CUTFLEX HFLEX100P

ADHESIVE LINER

**ESPECIALLY
FOR COTTON,
POLYESTER
(NON-SUBLIMATED)
& MIXED**

The elasticity of polyurethane gives the **HFLEX100P*** awesome flexibility.

It is recommended for markings on light, soft and stretchy fabrics.

Its adhesive liner makes the graphics easier to position on the fabric before pressing.

COLOUR FILM CUTFLEX HFLEX1000P

NON-ADHESIVE LINER

**ESPECIALLY
FOR COTTON,
POLYESTER
(NON-SUBLIMATED),
ACRYLIC & MIXED**

HFLEX1000P is designed to make cutting and weeding detailed graphics easier.

It is recommended for creating markings on thick and textured fabrics.

Its non-adhesive liner makes weeding quicker, with less breakage.

The non-adhesive properties of the liner enable to prepare kits in advance.

COLOUR FILM FLOCK 200 SERIES

ADHESIVE LINER

**ESPECIALLY
FOR COTTON
& POLYESTER
(NON-
SUBLIMATED)**

Want to add a velvet effect to your textile decorations? Our new flock range makes it easy!

Created with the requirements of embroidery, screen printing and flocking in mind, the FLOCK200 film lends itself to the customisation of sportswear, T-shirts, sweatshirts, polo shirts and more.

Its soft and slightly structured velvet effect makes it ideal for logos, numbers or vintage-style graphics.

Secure value in sparks and fashion industry!

COLOUR FILM GLITFLEX SERIES

ADHESIVE LINER

ESPECIALLY FOR COTTON & POLYESTER (NON- SUBLIMATED)

GLITFLEX film is designed especially for urban-style decoration and large-scale graphics.

Its **textured sparkle** finish gives textiles a structured appearance.

GLITFLEX remains flexible despite being thick. It can be applied on all cotton and polyester textiles.

INFORMATION

The material must be cut in mirror mode. With a plotter, remember to use a 45° blade.

HEXIS ADVICE

It is recommended to weed the film slowly after cutting. We recommend washing your clothing items inside out.

PRINTABLE FILM PRINTFLEX UFLEX7PV2

NON-ADHESIVE LINER

ESPECIALLY FOR COTTON AND POLYESTER*

UFLEX7PV2 is specifically designed for printed graphics cut out during printing. Its composition makes detailed cut-outs in solid colours possible and the ink drying time is almost nil. Thanks to its non-adhesive liner, it is easy to weed.

BODYFENCE PAINT PROTECTION FILMS

PROTECTION AND CUSTOMISATION OF BODYWORK

HEXIS is offering a new-generation paint protection film. The BODYFENCE range, developed by HEXIS R&D, represents cutting-edge technology and offers effective protection for your bodywork paint.

PROTECTION AGAINST EXTERNAL AGGRESSIONS

- > SCRATCHES
- > STONE CHIPS
- > ABRASION
- > UV RAYS

THE ADVANTAGES OF BODYFENCE:

- > SELF-HEALING
- > ULTRA-TRANSPARENT
- > CHIP-RESISTANT
- > EASY TO APPLY
- > CONFORMABLE
- > DURABLE
- > SELF-CLEANING

In addition, this ultra-transparent PU film facilitates cleaning by preventing dirt from adhering to the paint, keeping your car...

HIGH- PERFORMANCE FILMS FOR WINDSCREEN PROTECTION

HEXIS CATALOGUE 2020 
www.hexis-graphics.com

WINDSCREEN PROTECTION FOR PASSENGER VEHICLES

Specially designed for windscreens of passenger vehicles, **3333SHIELD** offers a premium solution combining protection and aesthetics.

Designed in the USA, **3333SHIELD** is made up of three removable layers of optically clear, 75-micron polyester.

This film protects against UV rays whilst also preventing scratches, cracks and shocks.

Peeling off the upper layer reveals a new protective layer, regaining clear, unobstructed vision.

PRODUCT CODE	THICKNESS MICRONS	LINER	WIDTH MM	30,5 LM LENGTH	
				LM CUT LENGTH SELLING PRICE	SELLING PRICE PER UNIT
 3333SHIELD	230	PET	1524	POR*	POR*

WINDSCREEN PROTECTION FOR RACING CARS

During car races and other competitions, windscreens have to withstand projectiles, scratches and mud splashes.

Specially developed for racing cars, **4444RACING** offers extreme protection and is made up of four removable layers of optically clear polyester.

Applying **4444RACING** on the windscreen helps regain unobstructed vision of the road and other competitors by removing the upper layer.

PRODUCT CODE	THICKNESS MICRONS	LINER	WIDTH MM	30,5 LM LENGTH

RACING OPTICS

BASIC

HEXIS has joined forces with Racing Optics to bring you high-performance multilayered protective films.

With improvements in safety, visibility and efficiency constantly in mind, the multilayered Racing Optics film offers perfect vision at any time.

Discover the Racing Optics protective film, perfect for protecting windscreens from scratches and impacts.

The course covers cutting and finishing techniques for two types of film.

You will learn how to apply the Racing Optics protective film and become certified as an approved HEXIS Racing Optics installer.

DURATION

2 days

NUMBER OF PARTICIPANTS

4

PROGRAMME

- > **PRESENTATION** OF THE FILMS AND APPLICATION TOOLS
- > **PREPARATION OF** THE SUBSTRATE
- > **APPLICATION METHOD** FOR THE 3333SHIELD FILM (3 REMOVABLE LAYERS OF 75 MICRONS EACH)
- > **APPLICATION METHOD** FOR THE 4444RACING FILM (4 REMOVABLE LAYERS OF 100 MICRONS EACH)
- > **THERMOFORMING** TECHNIQUE
- > **CUTTING AND FINISHING**

THE BASICS OF SELF- ADHESIVE FILMS

BASIC

This course is recommended for any professional planning to work in the fields of sign-making and visual communications. It aims to teach the basic principles of self-adhesive films and how they should be handled and applied.

DURATION

2 days

NUMBER OF PARTICIPANTS

4

PROGRAMME

- > **KNOWLEDGE AND EVALUATION** OF THE DIFFERENT TYPES OF SELF-ADHESIVE FILMS
- > INTRODUCTION TO **TOOLS AND ACCESSORIES**
- > **PREPARATION OF THE SUBSTRATE**
- > **WEEDING** AND USE OF TRANSFER TAPE
- > **USING** THE SQUEEGEE
- > DRY AND WET APPLICATION **METHODS**
- > **APPLICATION TECHNIQUES** DEPENDING ON TYPE OF FILM
- > **CUTTING TECHNIQUES** ON DIFFERENT SUBSTRATES (PANELS, WINDOWS, VEHICLES)
- > **FINISHING**

FULL WRAPS

DISCOVERY

This course is recommended for novices in self-adhesive film application and/or people intending to start up a full wrap business.

DURATION

5 days

NUMBER OF PARTICIPANTS

4

PROGRAMME

- > **LEARN HOW TO RECOGNISE AND EVALUATE** DIFFERENT SELF-ADHESIVE FILMS
- > **INTRODUCTION** TO APPLICATION TOOLS AND ACCESSORIES
- > **LEARN HOW TO USE** THE SQUEEGEE
- > **PREPARATION** OF THE VEHICLE: REQUIRED FLUIDS
- > **TIPS** FOR PREPARING THE FILM APPLICATION
- > **ANALYSIS** OF THE TARGET SURFACE
- > **APPLICATION TECHNIQUES** FOR VINYL
- > **TECHNIQUES FOR APPLICATION OVER** DEFORMATIONS
- > **USING** THE HEAT GUN
- > **TECHNIQUES FOR CUTTING** THE VINYL ON THE VEHICLE
- > **FINISHING**

BASIC

This course covers all the tips and tricks needed to handle our adhesive films skilfully when performing a full wrap. The trainer will answer any questions and demonstrate the techniques in practice, taking into account the level of knowledge of each participant.

This course is recommended for people who already have some experience in applying self-adhesive films to flat surfaces.

DURATION

3 days

NUMBER OF PARTICIPANTS

4

PROGRAMME

- > **INTRODUCTION** TO THE WORLD OF SELF-ADHESIVE FILMS, **HOW TO CHOOSE** A PRODUCT DEPENDING ON ITS APPLICATION, THE TYPES OF ADHESIVES, TEMPERATURES
- > **CALCULATING THE AMOUNT OF VINYL** NEEDED TO COVER A VEHICLE
- > **TIPS** FOR PREPARING THE FILM APPLICATION
- > **TOOLS AND ACCESSORIES**
- > **PREPARATION** OF THE VEHICLE: REQUIRED FLUIDS
- > **APPLICATION TECHNIQUES** FOR FULL-WRAP SELF-ADHESIVE FILMS
- > **CUTTING AND FINISHING**

INFORMATION

The training sessions are not intended for actual full wrap jobs. The trainer will remove all films from the substrate at the end of the session.

At the end of the course, each participant will be given a certificate of attendance.

FULL WRAPS

ADVANCED

In this course, participants practise in detail how to apply the different parts of a full wrap on a car.

This course is aimed at experienced installers who want to further their knowledge and acquire more advanced application techniques: front and rear bumpers, exterior mirrors, door handles, cutting techniques, etc.

Its focus will depend on requests received and on the previous experience of the participants.

DURATION

2 days

NUMBER OF PARTICIPANTS

4

PROGRAMME

- > **INTRODUCTION** TO THE WORLD OF SELF-ADHESIVE FILMS, **HOW TO CHOOSE** A PRODUCT DEPENDING ON ITS APPLICATION, THE TYPES OF ADHESIVES, TEMPERATURES
- > **CALCULATING THE AMOUNT OF VINYL** NEEDED TO COVER A VEHICLE
- > **TIPS** FOR PREPARING THE FILM APPLICATION
- > **TOOLS AND ACCESSORIES**
- > **PREPARATION** OF THE VEHICLE: REQUIRED FLUIDS
- > **APPLICATION TECHNIQUES** FOR FULL-WRAP SELF-ADHESIVE FILMS
- > **CUTTING AND FINISHING**

BODYFENCE / PAINT PROTECTION FILM

BASIC

DURATION

3 days

NUMBER OF PARTICIPANTS

4

This course is aimed at all professionals currently applying, or intending to start applying, paint protection films. The trainer will support each participant, taking into account their level of knowledge. The objective of the course is to learn how to apply the **BODYFENCE** paint protection film.

PROGRAMME

- > **PREPARATION** OF THE APPLICATION TOOLS AND ACCESSORIES
- > **PREPARATION** OF THE VEHICLE
- > **DEFINITION** AREAS TO BE PROTECTED
- > **ANALYSING** THE TARGET SURFACE
- > **APPLICATION TECHNIQUES** FOR "TRADITIONAL" PAINT PROTECTION FILM
- > **APPLICATION TECHNIQUES** FOR BODYFENCE PAINT PROTECTION FILM WITH PRECUTS
- > **TECHNIQUES FOR APPLICATION OVER** DEFORMATIONS
- > **CUTTING TECHNIQUES**
- > **FINISHING**

ADVANCED

DURATION

2 days

NUMBER OF PARTICIPANTS

4

This course is aimed at people who have previously attended the **BODYFENCE** BASIC course. Participants further their knowledge and acquire more advanced techniques for applying precuts.

The focus will depend on requests received and on the previous experience of the participants.

PROGRAMME

- > **EVALUATION** OF THE PARTICIPANTS' EXPERTISE
- > **DETAILED PRESENTATION** OF THE HEXIS DESIGN SOFTWARE
- > **APPLICATION** PRECUTS ON COMPLEX VEHICLES
- > **CUTTING TECHNIQUES**
- > **FINISHING**

INFORMATION

The Basic and Advanced courses can be combined.

The trainer will remove all films from the substrate at the end of the session.

At the end of the course, each participant will be given a certificate of attendance.

CUTTING SOFTWARE: MORE
THAN 60,000 PRECUTS AVAILABLE!

HEXIS CERTIFICATION PROGRAMMES

WHAT IS CERTIFICATION AND WHO CAN BE CERTIFIED?

Our aim is to provide a formal framework for professionals in our field to validate their skills as film application and/or vehicle wrap specialists. To be certified, installers must demonstrate skills on several levels, including the technical knowledge, the practical skills and the know-how to tackle all known situations as well as to overcome new challenges.

The skill set required is highly specific. It takes experience (including learning from trial and error), practice, training, a passion for this line of work, an eye for detail, the will to constantly progress and a natural aptitude for manual work. It also requires discipline and a logical approach to problem solving.

NETWORK

Becoming part of the HEX'Perts network means you will be able to rely on other members when big jobs call for extra hands. In addition, HEXIS may also require your expertise, whether for product demos, trade shows, new customers, problem-solving or large-scale jobs.

REPUTATION

Being part of the HEX'Perts network is a compelling argument when it comes to building customer trust and winning new business.

GUARANTEES

Offer your clients the assurance of quality work. Your expertise in this field will have been refined, tested, qualified and certified. You will be able to better guarantee each new job with confidence.

INFORMATION

HEXIS certified installers
are listed in the
worldwide network of

BODYFENCE CORNER, AN INNOVATIVE CONCEPT

BODYFENCE CORNER is a workshop designed specifically for the application of paint protection film.

HOW DO I OPEN A BODYFENCE CORNER?

1/ TRAINING

You must have attended at least one BODYFENCE training session.

2/ CERTIFICATION

Once training is over, apply for certification online. The purpose of the certification is to validate your technical knowledge and skills.

3/ CONDITIONS FOR OPENING

Finally, to open a BODYFENCE CORNER, you must:

- Comply with the graphics charter
- Apply the specifications
- Master the application techniques

WHAT ARE THE BENEFITS OF A BODYFENCE CORNER?

BODYFENCE CORNER is not just a name, it's an entire work philosophy, supported by professionals who will provide you with the necessary tools for your shop.

- Discounts on materials and accessories
- Listing on our website
- Communication tools reserved for the network
- Access to a special catalogue
- Free further training
- Featured on social networks
- Support for trade fairs and events

THE HEXIS PLUS

HEXIS KNOW-HOW

Since 1989, HEXIS® have been providing professionals in sign and advertising marking with our expertise in the production of media for visual communication.

The only French manufacturer specialised in the adhesive coating of PVC and non-PVC films, HEXIS® also produces our own cast films with globally acclaimed conformability and durability qualities.

HEXIS® export our products to some 50 countries across all the continents.

Our team of chemists are constantly improving our product formulations. They innovate to fine-tune the products of tomorrow. In 2010 in particular, their research enabled Hexis to launch "green" PVC-free and plasticiser-free cast films and a film with antimicrobial properties, boosting the fight against nosocomial diseases. The latest development from HEXIS® R&D is a self-healing furniture and paint protection film (PPF), available in an ultra-transparent or matt finish, called BODYFENCE.

HEXIS® have been ISO 9001 certified for our quality management system since June 2005.

WHAT HAS MADE OUR FILMS SO SUCCESSFUL?

For 30 years, HEXIS® films have proven their quality, in particular due to:

- > Their performance and the stringent selection of raw materials
- > Total traceability of the production batches
- > Easy weeding and cutting
- > The quality of our adhesives
- > High durability levels

CALENDERED OR CAST FILMS?

At HEXIS®, every film has its purpose and its market.

We have perfected the manufacture of cast films offering high deformation potential, extreme conformability and long durability. Our calendered films are perfect for applications on flat and slightly curved substrates.

Smooth or rough surfaces; applications on floors, walls, windows, boards; cars, trains or boats; for lifespans ranging from 2 months to 12 years, HEXIS® have the solution!

Our decorative effects (chrome, sparkle and leather) are also ideal for enhancing everyday objects (electronics, household appliances), for refurbishments and for wall decoration.

THE AND HEX'PRESS LINERS

The TAKE HEAT EASY® (THE) and HEX'Press liners are innovations that HEXIS® use for our high-performance films specially designed for full wrap applications.

TAKE HEAT EASY® (THE) is the result of a new structured liner combined with a novel solvent-based adhesive which reduces the film's initial tack, making it easier to apply. All installers, including beginners, will love it.

The HEX'Press liner consists of a polyethylene-coated silicone kraft paper with an embossed surface structure offering unrivalled adhesive properties: thanks to the air egress system, the film remains repositionable during application, and bubbles and creases can be eliminated with much greater ease. Application is easier and a considerable amount of time can be saved. The HEX'Press and THE products are readily identifiable: ranges with a product code starting with the initials "HX" carry a structured HEX'Press liner, and those starting with "THE" carry a TAKE HEAT EASY® liner.

THE HEXIS NETWORK, A TEAM OF EXPERTS AT YOUR SERVICE

Our partners are ready to assist you with your projects. In addition, a HEXIS® team consisting of professionals in application, colorimetry and digital imaging, are also here to help you. They can provide the essential training needed to master new professions like full wraps and large-format digital printing; professions that demand greater expertise to make the very most of the full potential of our media.

To support our experts, the "Professionals" section of our website, www.hexis-graphics.com, provides all the technical information you could ever need: data sheets, application guides, ICC profiles, application photos, etc.

MADE IN FRANCE

HEXIS products are manufactured in France at our production sites located in Frontignan (Hérault) and Hagetmau (Landes). All our packaging bears a "Made in France" label.

By doing our bit to promote French know-how, we are able to both save jobs and protect the environment.

PRODUCT SAMPLES AND SWATCHBOOKS

To receive samples of some of our products in A4 or A5 size, documentation or swatchbooks and colour charts, please contact your local distributor.

TECHNICAL DATA SHEETS AND PRACTICAL APPLICATION GUIDES

Technical data sheets for our products can be downloaded free of charge from our website:

<http://www.hexis-graphics.com> under the "Professionals" section

They contain precise technical descriptions of our products. Product specifications are subject to change so we recommend you check this section regularly.

ICC PROFILES

Obtain optimal results from our digital imaging media by downloading the ICC profiles corresponding to your RIP/printer set-up. Check the list of new profiles available regularly at this address:

www.hexis-graphics.com under the "Professionals" section

For any queries regarding ICC profiles, please contact: profiles@hexis.fr

CUSTOM COLOURS

Custom colours are available for our colour plotter and wrap vinyls.

Note: please enquire for further details on pricing and lead times. For all enquiries, please contact your local distributor.

TRAINING COURSES

Whether you are interested in training in digital imaging, solar films, full wraps, BODYFENCE or the application methods for adhesive films, HEXIS® have a solution to meet your needs.

For all training enquiries, please send an e-mail to the following address: application.division@hexis.fr

IMPORTANT INFORMATION

• Thicknesses and dimensions of the products:

Thicknesses are given for information and for comparison with products from equivalent ranges available on the market. The dimensional tolerances of the rolls conform to the HEXIS® processing and cutting technical data sheets available on our website: www.hexis-graphics.com under the "Professionals" section

• Durabilities:

The durabilities indicated are provided for information purposes only and relate to specific colours under defined climatic conditions. For further information, please refer to the technical data sheets available on our website.

• Colours:

Colours presented in our catalogue are for guidance only and are not contractual. Please do not hesitate to contact your local distributor for the corresponding swatchbooks and colour cards.

• Media for cutting plotters:

Cutting plotter vinyls may have splices and if so, this will be indicated on the packaging.

• Digital imaging media:

Our media are developed and tested for machines using original manufacturer inks.

• Photos and illustrations:

All illustration images, especially the photos of accessories, are non-contractual. The actual appearance of the accessory may vary.

THE REACH REGULATION (REGISTRATION, EVALUATION, AUTHORISATION AND RESTRICTION OF CHEMICALS)

This regulation was adopted by the European Parliament and the Council of the European Union on 18 December 2006. It updates the European legislation with regard to chemical substances, and sets up a unique integrated system for registering, evaluating and authorising chemical substances within the European Union.

Its aim is to improve the protection of both human health and the environment while maintaining competitiveness and enhancing the spirit of innovation within the European chemicals industry.

GENERAL TERMS AND CONDITIONS OF SALE

1. APPLICATION OF TERMS AND CONDITIONS

- a) These terms and conditions apply to every dealing between Hexis Aust Pty Ltd (also known as Hexis Aust) and the "Customer", and the Customer agrees to adhere to these Terms and Conditions and that they prevail over any other conditions whether verbal, implied or written to the extent permitted by law.
- b) These Terms and Conditions may be changed by Hexis Aust from time to time and the then current version of the Terms and Conditions shall be binding upon the Customer.

2. CONDITIONS OF PROVISION OF CREDIT

- a) Hexis Aust reserves the right to require the Customer to provide a bank guarantee or personal guarantee, or if the Customer is a company, to require that the directors and/or shareholders of the Customer provide personal guarantees. Hexis Aust also reserves the right to change the terms and conditions or add further conditions at any time, to withhold supply or cease work at any time immediately upon written notice in its absolute discretion without a requirement to give any reasons.
- b) If the Customer is a company, in consideration of Hexis Aust agreeing to supply the Customer, the directors of the Customer personally agree that they are jointly and severally obliged to pay to Hexis Aust, all monies due to Hexis Aust by the Customer whether prior demand has been made on the Customer or not. The directors agree to indemnify Hexis Aust and this obligation shall be a continuing obligation. The Customer further agrees to provide any additional directors' personal guarantees upon demand.

3. ORDERS

- a) Orders are subject to acceptance by Hexis Aust in whole or in part. The Customer should place a written order setting out full details and all of their requirements. If the Customer does not do this Hexis Aust will not be responsible for any mistakes that may be attributed to the lack of written details. The Customer will be required to pay for such goods ordered by mistake.
- b) Hexis Aust reserves the right to impose minimum order requirements which may be changed by Hexis Aust from time to time.
- c) No order may be cancelled except with consent in writing from Hexis Aust. The Customer will be responsible for and will indemnify Hexis Aust for any and all loss suffered or incurred by Hexis Aust by the cancellation.
- d) Any delivery fee may be charged to the Customer account in addition to the recorded cost of any goods and services without signature by or on behalf of the Customer.
- e) All goods shall be accepted at the sole risk of the Customer.

4. ACCEPTANCE OF ORDERS

Orders will be deemed to have been accepted by Hexis Aust at the earlier of:

- a) dispatch of the goods; or
- b) for Indent Items, when Hexis Aust places an order for such goods; or
- c) if the Customer expressly asks for an acceptance in writing, upon the issuing of such acceptance in writing by Hexis Aust.

If the Customer wishes to change its order after acceptance of such order by Hexis Aust, Hexis Aust has no obligation to agree to any such change.

5. PRICES

Hexis Aust's price lists do not constitute an offer. Quotations are given and orders accepted only on the basis that the prices charged will be those applicable at the date of invoice, subject to such discount, rebate, tax or other adjustment as may apply from time to time. All prices are subject to change without notice and are exclusive of GST. GST will also be charged on services and freight.

6. CREDIT TERMS - PAYMENT

Without limiting the foregoing, in the event of Hexis Aust granting a credit account to the Customer then the following shall apply:

- a) The credit account limit will be based on an assessment by Hexis Aust of the Customer trade and other references. The level of credit provided is at the absolute discretion of Hexis Aust. Hexis Aust reserves the right to withhold supply of goods if the credit limit is exceeded.
- b) Subject to contrary written advice by Hexis Aust, all invoices are due and payable 30 days from the date of invoice with the exception of nonstock items which require a 25% deposit with the balance to be paid prior

to delivery.

- c) Payments are to be made direct to Hexis Aust Pty Ltd, PO Box 2122, Nerang DC, Qld, 4211. Payment may also be deposited directly into the Hexis Aust bank account by request.
- d) Payments are not deemed to have been made until cleared funds are received into the Hexis Aust bank account. The Customer shall be responsible for any fees incurred by Hexis Aust if any payment is dishonoured. Such fees must be paid immediately, together with the balance owing on any original invoiced amount.
- e) Should the Customer default in its payment obligations hereunder Hexis Aust is entitled to suspend deliveries and to cancel any existing contract for supply without notice.
- f) Hexis Aust is entitled to charge interest on all accounts not paid by the due date for payment and the Customer undertakes to pay any interest so charged. Such interest shall be calculated on a daily basis from the due date for payment until Hexis Aust receives payment at such rate up to but not exceeding 2% per month.
- g) All expenses, costs or disbursements incurred by Hexis Aust in recovering any outstanding monies including but not limited to debt collection agency fees and solicitor's costs on a solicitor and own client basis shall be paid by the Customer.
- h) Hexis Aust may in its absolute discretion, at any time, request security or additional security to cover any amount of credit extended to the Customer, whether or not the Customer has defaulted in payment, and may withhold supply of any goods or credit arrangements until such security or additional security is provided.

7. SHIPMENT

- a) Representations by Hexis Aust as to date and/or time for delivery are not guaranteed, except by special arrangement in writing. All representations are made in good faith, in the light of conditions and circumstances that are known to Hexis Aust and prevailing at the time.
- b) Hexis Aust shall not be liable for late deliveries or non-deliveries and under no circumstances shall Hexis Aust be liable for any loss, damage or delay occasioned to the Customer or its customers arising from late or non- delivery of goods or service, whether such loss or damage is due to negligence or wilful act, misconduct or default of Hexis Aust or any third party and whether or not if the same occurs in the course of the performance by Hexis Aust of any contract or in circumstances which are foreseeable by Hexis Aust or in circumstances which would constitute a fundamental breach of any contract or a breach of any fundamental term hereof.
- c) Goods will normally be shipped by the most convenient and economical method and route having regard to the nature of the goods. Hexis Aust reserves the right to charge the Customer for delivery. If shipment is made at the Customer request via a method other than that which would normally be used by Hexis Aust, such shipment will be made F.O.B. point of shipment and the Customer shall pay to Hexis Aust the actual freight and any other charges incurred by Hexis Aust in forwarding the order to its destination whether or not such charges appear on the invoice for the goods.
- d) Hexis Aust may deliver by instalments. Each instalment shall be regarded as a separate contract and any defect in, or failure to deliver an instalment shall not give the Customer the right to cancel the balance of deliveries due under the order.
- e) The Customer will upon receipt inspect the goods and notify Hexis Aust of any errors or shortages within three days after delivery quoting delivery docket numbers and all other relevant details. Hexis Aust Pty Ltd – Terms & Conditions of Trade.

8. DAMAGE OR LOSS IN TRANSIT

Any claim for non-delivery, shortage in supply or damage occurring during the course of delivery by the Customer must be made in writing by the Customer to Hexis Aust:

- a) within three days after delivery in the case of partial loss, damage or non-delivery of any separate part of a consignment,
- b) within fourteen days of the date of dispatch, as shown on the relevant invoice, in the case of non-delivery of the whole of a consignment.

Hexis Aust shall have the right at any time within 30 days after receipt of the claim to inspect the goods referred to in the claim. If the Customer disposes of such goods or any part thereof within the 30-day period without the written consent of Hexis Aust, all claims in respect of the goods so disposed of shall be deemed to have been waived by the Customer. All claims must be accompanied by the following documents :
duplicate of invoice covering shipment, duplicate of delivery receipt mentioning missing products or damage.

9. TITLE AND RISK

Hexis Aust reserves the following rights in relation to stock until all amounts owed by the Customer to Hexis Aust are fully paid:

- a) legal ownership of goods,
- b) to enter the Customer premises (or the premises of any third party where the goods are located) using reasonable force, to repossess the goods without the Customer being able to make a claim for trespass. All costs of repossession of goods by Hexis Aust will be payable by the Customer, and
- c) to keep or resell any goods repossessed pursuant to (b) above.

The Customer shall be bailee of goods in its possession but title for such goods remains with Hexis Aust.

If the goods are resold, or products manufactured using the goods are sold by the Customer, the Customer shall hold such part of the proceeds of any such sale as represents the invoice price of the goods sold or used in the manufacture of the goods in a separate identifiable account as the beneficial property of Hexis Aust and shall pay such amounts to Hexis Aust upon request.

Notwithstanding the provisions above, Hexis Aust shall be entitled to maintain an action against the Customer for the whole purchase price and any other loss suffered or incurred by Hexis Aust.

Risk in the goods supplied by Hexis Aust shall pass to the Customer immediately on delivery and the Customer shall keep the goods fully insured, safe and readily identifiable.

10. PRODUCT WARRANTY AND RETURNS

Goods are non-refundable with the exception of faulty materials. The Customer is responsible for testing and determining the suitability of the material for the purpose for which it is intended to be used. Hexis Aust withdraws and shall not be bound by any representation, warranty, condition or statement affecting the provision of any goods and services to the Customer by Hexis Aust and the Customer acknowledges such withdrawal prior to any sale of any goods or provision of services by Hexis Aust. Claims for faulty materials must be made in writing 7 days from date of delivery. Claims made after 7 days will only be accepted at Hexis Aust's discretion. No returns will be accepted without prior authority from Hexis Aust. Hexis Aust will issue a return approval number and will nominate a transport company. A 20% restocking fee applies. Credits will be issued based on the quantity of stock (meters) returned by the customer.

Hexis Aust reserves the right to discontinue any product or to change any product materials, design specification or colour without prior notice. As the application of our product is beyond the control of Hexis Aust, no warranty is expressed or implied in relation to the performance of any product in any given situation.

11. EXCLUSION OF LIABILITY AND INDEMNITY

Hexis Aust shall not be liable for any loss or damage of whatever nature and howsoever arising (including without limiting the generality of the foregoing liability for consequential loss or damage) from its sale of the goods to the Customer or by the use or misuse of such goods by the Customer or any third party, and all conditions and warranties are hereby excluded to the extent permitted by law. Where permitted by law, Hexis Aust's liability to the Customer in respect of any breach of condition or warranty implied by law which has not otherwise been excluded, shall be limited to the following, at Hexis Aust's option; in the case of goods:

- a) the replacement or repair of the goods, or
- b) payment of the cost of replacing or repairing those goods and/or in the case of services: a) the supply of the service again or
- c) payment for the cost of the service.

Subject to the exceptions hereinbefore contained, Hexis Aust shall not be liable to any user of the goods and the user shall indemnify and keep Hexis Aust indemnified against all losses, costs, claims, demands, expenses and liabilities of whatsoever nature including without prejudice to the generality of the foregoing, claims for death, personal injury, damage to property and consequential loss (including loss of profit) which the user, the Customer or any other person may sustain, pay or incur as a result of or in connection with the use of the goods, whether or not in accordance with instructions or advice given by Hexis Aust and whether or not directly or indirectly attributable to negligence or wilful act, misconduct or default of Hexis Aust or any third party and whether or not the same occurs in the course of the performance by Hexis Aust of any contract or in circumstances which are foreseeable by Hexis Aust or in circumstances which would constitute a fundamental breach of any contract or a breach of any fundamental term hereof.

12. CHANGE OF OWNERSHIP

The Customer shall no later than 14 days prior to any proposed changes of ownership, name, address, internal structure and/or alteration, addition to the shareholding or directorship, provide full details of the proposed change, alteration or addition to Hexis Aust and the Customer shall be liable for any goods supplied by Hexis Aust after such change, alteration or addition unless Hexis Aust has acknowledged by writing acceptance of the proposed change, alteration or addition.

13. MISCELLANEOUS

- a) This Agreement shall be governed by and interpreted in accordance with the laws of Queensland and the parties irrevocably submit to the non-exclusive jurisdiction of the courts of that jurisdiction and any appeal courts from them.
- b) The Customer shall not assign, transfer or novate its rights and obligations under this Agreement, without the prior written consent of Hexis Aust.
- c) If any provision of these terms and conditions is, for any reason, wholly or partly held to be illegal, void, invalid or unenforceable by a court of law or other competent authority, that provision shall be severed in the relevant jurisdiction and all other provisions of the terms and conditions shall continue in full force and effect.
- d) The Customer and the directors of the Customer hereby charge any real property or part of real property legally or beneficially owned by them and consent to the lodging of a caveat over any such real property by Hexis Aust.

14. ACCEPTANCE

The material has been supplied on the basis that these conditions form part of the sale. Acceptance of goods by the Customer will be deemed to constitute acceptance of these conditions.

Hexis Aust Pty Ltd and Stickittome Pty Ltd are separate and independent companies. Each company provide their own General Terms & Conditions of Sales (T&C's). Each company is not liable for the other party's T&C's. The applicable T&C's are the one from the company that got an order from a customer, accepted it, delivered and invoiced.
