WELCOME TO

VISUAL IMPACT

Brisbane 2024

On behalf of Visual Connections Australia, our Platinum Sponsor Roland DG and our Gold Sponsors Avery Dennison, Epson, Graphic Art Mart, HP, Spicers and Trotec, we would like to welcome you to **Visual Impact Brisbane 2024.**

This is our first Visual Impact show in Brisbane since 2018 and will feature the latest innovations from the major suppliers to the signage, print, display and engraving industries.

You can expect to find a wide range of solutions on show, from digital printing and personalisation; to channel lettering, braille and illuminated signage; wide-format printing and displays; textile, sublimation, and direct-to-garment printing; vinyl applications; and finishing technologies including laser cutting, routing and engraving, stitching, seaming, welding and trimming; media and more.

Many technologies will be demonstrated live on stand at the show, and you'll have the chance to connect with the experts to discuss how their offerings can meet your specific business needs.

The exhibition will be complemented by a packed program of informative sessions covering trends, technologies, business information and the regulatory environment, as well as panel sessions tackling some of the hottest issues facing industry businesses. You can find the Connections Centre Program later in this Visitor Guide – make sure you check out the scheduled times, so you don't miss any sessions of interest.

Running a business is not getting any easier, so now is the time to strengthen our businesses and make sure we are equipped to be as efficient, productive and profitable as possible. It's also a great time to look at diversifying, with market needs changing and new opportunities evolving.

The next three days provide the perfect opportunity for you to understand the latest trends and discover how you can capitalise on these to create profitable new revenue streams.

We would not be able to put on a show of this magnitude without our sponsors, and we thank them for their continued support for our industry.

Once again on behalf of the Visual Connections Australia, our sponsors and our exhibitors, we hope you have a great time and truly enjoy Visual Impact Brisbane 2024.

Kindest regards,

**Peter Harper – Chief Executive Officer
Visual Connections Australia**

The ASGA is the peak body representing sign writers, manufacturers and installers, engravers and wide-format printers, designers, educators and apprentices in the sign, display and graphics sector. We aim to build a professional industry through providing resources, support and technical information to our members, working to improve education and training, attracting new talent to the industry, and through advocacy and representation. The achievement of excellence is recognised and

encouraged through our biennial National Sign & Graphics Awards and we regularly take part in industry trade shows and provide networking opportunities for our members.

Queensland's premier RTO (Award winning as voted for by ASGA) for apprenticeships and RPL certification within the signage industry. ASMI plays an active role in fostering change and acting as a catalyst in the implementation of change and innovation in the signage industry. We believe we have a creative role in ensuring students benefit through improved learning resources and training while on-the-job. These innovative training practices delivered by ASMI have supplied industry with highly skilled workers with increasing levels of technical knowledge and employability skills related to the industry's technological advancements. ASMI understands students learn differently and customise teaching so the student can work at a level best for them and their capability to accommodate their learning. We have now recently expanded to include training in New South Wales.

Your future starts here! The print, sign, graphics and visual communications sector is an exciting industry with almost endless opportunities. You can create everything from shop signs to catalogues, from fabrics to \$50 bills, and from banners to biscuit packets. Perhaps you'll erect advertising billboards or huge illuminated signs, put the graphics onto an F1 racing car or luxury Lamborghini...or maybe print the next best-selling book title! One day, you could be printing a wall graphic for a leading retailer, then wrapping a race car the next. Perhaps you'll be adding the illumination to a freeway sign, printing a batch of the latest best-selling book title for an international publisher, or printing tags and tickets for supermarket shelves. The list is almost endless! Whether you're creative or technically talented, superbly organised or good with your hands, an IT whizz or engineering guru, we need people like YOU!

This growth is driving significant volume into the large format print market, presenting an opportunity for Print Service Providers looking to diversify or add an additional application stream. In this session, Jeremy will share some of the latest printed décor market trends and how you can tap into this lucrative market opportunity.</p>

THURSDAY 18 JULY 2024	
TIME	SESSION
3.00pm – 3.30pm	<p>Tree Hugging is Smart for Business: Sustainability for Signage is Here</p> <p>Speaker: London Mills – Visual Media Association</p> <p>With sustainability and renewable energies high on the government's agenda, industry must define its sustainability standards or become regulated under codes that are not always relevant. The signage industry has opportunity to make their mark and build their sustainable credentials and establish achievable targets. London is the Program Manager and Manager – Strategic Projects at the Visual Media Association, she will share insights to building a straight-forward, low-cost and effective customised sustainable program for your signage business.</p>

FRIDAY 19 JULY 2024	
TIME	SESSION
10.00am – 10.30am	<p>Why White Ink will Wow your Customers and Win You Business</p> <p>Speaker: Jeremy Brew – HP</p> <p>We don't just print on white materials – there's a whole world of transparent, coloured and metallic media and substrates that were waiting to be transformed. White ink allows a level of creativity in the design and print space that's opening doors for Print Service Providers to enable new possibilities for brands and designers. In this session, Jeremy will cover the market opportunity and the applications that are screaming for white ink. White ink printing is the biggest transformation in Large Format Printing in the last decade – join this session to find out why.</p>
11.00am – 11.30am	<p>Build Your Colour Profile with Epson Colour Management</p> <p>Speaker: Zeff Lowe – Epson</p> <p>Learn how the Epson SD-10 spectrophotometer and auto table can optimise your colour workflow with Epson devices.</p>
12.00pm – 12.30pm	<p>UltraColour & UltraColour MAX: Revolutionising Your Transfers, Maximising Your Impact</p> <p>Speaker: Ben Carroll – Velflex</p> <p>Embark on a journey with Ben Carroll as he introduces Velflex's pioneering transfer technologies: UltraColour and UltraColour MAX. This session illuminates the synergy between the original, unmatched digital screen print hybrid transfer, UltraColour, and the cutting-edge direct-to-film (DTF) solution, UltraColour MAX, crafted with the latest Mimaki print technology. Discover how these two flagship products can seamlessly integrate into your garment decoration business, offering unparalleled flexibility and efficiency. Ben will delve into how UltraColour MAX serves as the optimal solution for low-volume orders, providing rapid turnaround times for small runs and sample presentations, while UltraColour offers a cost-effective, durable solution for large-scale projects, complete with dye migration blocking capabilities. Gain insights into leveraging these technologies to not only meet but exceed your customers' expectations, paving the way for a thriving, dynamic business.</p>
1.00pm – 1.30pm	<p>What are the drivers for the Architectural and Interior Design Markets?</p> <p>Speaker: Dan Sefton – Metamark</p> <p>Discussing the increasingly important world of Architectural Films.</p>

Myra Anwar

Myra Anwar, a seasoned HR professional, boasts over 10 years of experience in the Asia Pacific region, specialising in the role of Chief People and Culture Officer with Smartech. With a deep understanding of human resources strategies and practices, she has successfully led organisations in enhancing their workplace culture, fostering employee engagement, and driving organisational growth. Myra's extensive experience in managing diverse teams and her expertise in aligning HR initiatives with business objectives make her a valuable asset in today's dynamic corporate landscape. Her track record includes working in ASX-listed companies, private enterprises, and non-profit organisations, showcasing her adaptability and versatility. Myra holds a Bachelor of Business/Commerce degree with a major in HR/IR from Western Sydney University, further underpinning her comprehensive knowledge and expertise in the field.

Matthew Francis

Matthew Francis is a Senior Product Manager at Avery Dennison. Currently leading the ANZ Product team, Matthew has a rich background in product marketing and finance, having held pivotal roles across ANZ and the Asia Pacific regions. His career is marked by a strong commitment to sustainability and impactful change. He is passionate about sustainability and leading change, proud to introduce the Avery Dennison end cap recycling program, and excited to present our new sustainable materials. Matthew expertly balances a thriving career, a fulfilling family life, and a passion for sports, which keeps him energetic and dynamic.

Jeremy Brew

Boasting over two decades of experience in the graphics and print space, Jeremy has been at the forefront of the industry's transformative journey from analogue to digital print. His expansive knowledge spans content creation and both small and large format print technologies. In his current role as a Sales Enablement Strategist, Jeremy has been instrumental in guiding Print Service Providers across the Asia Pacific region towards success. He achieves this through innovative print processes and strategic material choices, helping businesses not only meet but exceed their goals.

Fiona Jacklyn

Fiona Jacklyn is the Business Development Manager at MEGT for over 10 years, helping businesses with solutions to recruit, manage and retain Apprentices and Trainees through a dedicated training plan with seasoned field officer appointed to ensure completion.

Renee Kruit

Ben Carroll

Ben Carroll is the Managing Director of Velflex, Australia's premier heat transfer supplier. He innovated UltraColour, a unique blend of digital and screen-printing techniques, setting a new industry standard. Beyond pioneering products, Ben is dedicated to enhancing industry skills through targeted workshops, emphasizing the art of heat pressing. His leadership not only advances Velflex but also cultivates a community of informed, skilled professionals.

Zeff Lowe

With over 26 years of professional sales experience, Zeff joined the signage and graphics industry in 2003 joining Conect Enterprises as a business-to-business consumables representative based out of their recently opened Eastern suburbs branch in Croydon Victoria. During the next 7 years he helped significantly grow the Victorian market as the market quickly pivoted during this period away from traditional signwriting techniques and computer cut vinyls into the rapidly evolving digital print market that now largely dominates the print market gaining extensive exposure and experience with both digital materials, but also taking more of an interest in the hardware and software being adopted within the industry. In 2010 he was promoted assuming the role of Hardware Manager being responsible for the sales, service & support of Roland digital devices. Over the next 5 years Zeff continued to work closely with the Roland brand but also looked to grow the overall hardware offerings and expanded the business into HP Latex and UV solutions finishing with Conect in 2016. After Conect, Zeff took the opportunity to further engage with the signage & print market joining with Epson Australia as the Business Development Manager for Signage and Fabric for the Southern States and Western Australia.

London Mills

London Mills brings a strong stakeholder and event management background across multiple industries. Having worked across the United Kingdom, New Zealand and Australia in various disciplines, London's eclectic work background well equips her as she returns to the print and visual media industry. London manages the strategic projects and Sustainable Green Print program for the Visual Media Association, the peak industry Association representing the paper, print, mail, publishing and distribution sectors across Australia and New Zealand.

Dan Sefton

Dan Sefton is a highly accomplished International Senior Business Development Manager with a wealth of experience in overseeing diverse regions across

Australasia, the Americas, and the Middle East. In his role, Dan excels in supporting distribution networks through a comprehensive approach that includes product management, pricing strategies, service enhancement, and technical support. With a deep understanding of global markets and a commitment to driving business growth, Dan has successfully developed and executed strategies that have significantly increased market share and customer satisfaction in highly competitive environments. His ability to navigate cultural nuances and build strong relationships with stakeholders has been instrumental in fostering long-term partnerships and achieving business objectives. Dan's expertise spans a wide range of areas, including market analysis, strategic planning, and operational efficiency. His innovative approach to problem-solving and dedication to excellence have earned him a reputation as a leader who can deliver results and inspire teams to reach their full potential. He is passionate about staying ahead of industry trends and leveraging new technologies to drive business innovation. Outside of work, Dan enjoys spending quality time with his wife, two young children and playing golf.

Chris Sherry

With close to 5 years product marketing in the graphics industry, and long career proceeding in technical and marketing roles in the healthcare industry Chris has a wealth of experience in the end-to-end process of product ideation to life cycle management, whilst always keeping the customer front-of-mind.

Ryan Warby

Ryan Warby started from humble beginnings in a bustling sign shop and swiftly ascended to managing the entire business. Ryan transitioned to a key role at one of the nation's largest signage supply firms and honed his expertise in equipment sales and user support. Now, at Epson Australia, Ryan is passionately championing cutting-edge sign and display technologies.

GUANGJIE TECHNOLOGY

GUANGJIE is an expert in offering a professional consolidation service in materials for Art Graphic and Digital Printing. Guangjie is a leading manufacturer and distributor of PVC Foam Board. The head office in Jiaxing (near with Shanghai). Our manufacturing site is in Kiangzhou. There are 4 production lines in the 10000 square meter sized factory, which ensure a stable quality under a good production capacity for us. Based on the success in PVC Foam Board, more and more customers ask us for many others digital printing materials. In past years, we accumulate rich experiences in that materials used for visual communication, art graphics and digital printing, like Flex Banner, Self-adhesive Vinyl, Textile, Acrylic Sheet, Aluminum Panel, Display etc.

GOLD SPONSORS

OF OUR NEW CLIENTS ARE REFERRALS

YOU CAN SEE WHY...

All my clients are sooooo happy with the quality and turnaround times with your printing.

Many thanks!

Kaz

Just a quick THANK YOU to you and your team in getting the report out so fast.

Deadlines are often “self-imposed” by clients, but in this case it was a real and hard deadline. As usual, you guys nailed it.

John

Thanks for the iMag link. It looks great and has gone across to the client for inclusion on their website.

Massive thanks to the HP team for the work on this year's publication. Couldn't pull it off without you all.

Karina
